SUPERIOR PEONIES IN DEMAND

THE progressive, up-to-date nurserymen, seedmen and florists of the future will be offering many of the better peonies to their customers and will be planting them for cut-flower production. The public is hungry for such peonies as Karl Rosefield, Mme. Jules Dessert, Sarah Bernhardt, Richard Carvel, Solange, Martha Bulloch Therese, etc., and we know by experience they will be purchased even by people of very moderate means in preference to some of the cheaper inferior varieties. Who would not prefer the beautiful Mme. Jules Dessert or Kelway's Glorious to the one time favorite, Queen Victoria, or a Therese to a Humeii?

Commercial cutflower plantings of the future will also be largely made with superior peonies when the stock becomes available in large enough quantity. This phase of the business is worth while doing well. It is one of the most extensive branches of peony growing and pays well. There are opportunities in this branch of the business in all parts of the country where peonies grow since the peony has now become the most sought for flower for all occasions during their blooming season.

Our experience in growing and selling peonies goes back through two generations to 1884 when the gardens were established by Mr. J. F. Rosefield. We have always aimed to produce the best stock and know you will be pleased with a trial order if you have not bought of us before. At any rate please let us hear from you this season.
